Re: Automated Online Quotations for Commercial Fire Policies

Effective Thursday, December 16, 2010, our online system will begin generating automated quotations for new business commercial fire policies only. Previously, all commercial quotations were mailed to your office.

Businessowners policies (BOP) can not be accepted online, and therefore must be submitted manually.

Unlike our online dwelling quote system, you will not receive a quotation instantaneously, as each submission must be screened for accuracy and rating purposes. However, this new process will eliminate the time it takes to mail a quote to your office after an application is submitted online. You will receive an acknowledgement reply, and will be notified by e-mail on the status of your application.

Please do not re-submit identical applications, as this may delay receiving a response from your initial submission.

Continue to keep your e-mail address current, as we will advise you when future system enhancements for commercial policies have been implemented. **Please forward this notice to everyone in your office that handles commercial lines accounts.**
